| INFORMATION | location: Reading, Berkshire | phone: hidden | email: ross@rossbeale.com |
| PROFILE | <p>I have a keen interest in developing high quality software which solves common problems. Throughout my education and career, I have utilised my consistent, strong work ethos to enhance my expansive skillset. I love the field of technology and I strongly feel my technical skills, passion and adaptability can inject both creativity and innovation into any individual or team project.</p> <p>Highly proficient in both front and back end web development and more recently, specialising in mobile, I possess skills to solve complex problems and present fully-fledged solutions.</p> | | |
| EDUCATION | <p>University of Reading, Berkshire, United Kingdom October 2010 – July 2013</p> <p><i>Computer Science BSc</i></p> <p>Graduated with first-class honours</p> <ul style="list-style-type: none">• Final Year Project:<ul style="list-style-type: none">• <i>Mobile Computing and Location Aware Applications</i>• Notable Achievements:<ul style="list-style-type: none">• Elected Course Representative within the School of Systems Engineering. I highlighted key student issues to staff and actively promoted the actions needed to rectify them.• Worked as a member of the Freshers' Week team, inducting new students to University. <p>Reigate College Sixth Form, Surrey, United Kingdom September 2007 – June 2009</p> <ul style="list-style-type: none">• 'A' Levels:<ul style="list-style-type: none">• Computing (Grade B)• English Language & Literature (Grade B)• Psychology (Grade B)• 'AS' Levels:<ul style="list-style-type: none">• Mathematics (Grade C) <p>Woodcote High School, Surrey, United Kingdom September 2002 – June 2007</p> <p>10¹/₂ A* – C Grade GCSEs including English Language, English Literature, Mathematics, Double Science, Information Communication & Technology and Design & Technology: Graphic Products.</p> | | |
| SKILLSET | Mobile platforms; iOS and Android. Web technologies; Ruby (Sinatra and Ruby on Rails), PostgreSQL, PHP & MySQL, HTML5/CSS3, JavaScript. Server platforms; including AWS and Heroku. | | |
| EXPERIENCE | <p>Conjure, Software Developer July 2012 – Present</p> <p>My time at Conjure mostly focuses on delivering bespoke high-quality software products for a range of clients. My experience with technologies within Conjure is vastly broad, ranging from mobile development (specifically, the iOS platform) to both front and back end web development. Conjure was made of a small, close-knit team; putting an emphasis on team cohesion, particularly in a software development environment.</p> <p>I also spend time at Conjure developing in-house products (such as Mixer and alibi). Mixer later went on to feature on TechCrunch and in The Guardian.</p> | | |
| OTHER | <ul style="list-style-type: none">• Created UniApp, a cross-platform mobile application which provides a portal of information for students at the University of Reading. UniApp later became one of the most popular student-developed University mobile applications in the UK.• Co-founded Airbyte, creating digital products and mobile applications.• Guest speaker at Social Developers London (January 2013). | | |
